The following resolution was proposed by the
Council Member Hon Mahalingam Kanagalingam Shivajilingam
and adopted by the Northern Provincial Council on January 27, 2014:

1. We bring to the notice of the International Community that the Tamil Nation has been, and continued to be subjected to ethnic cleansing by the Sri Lankan State, coupled with the mass killings of over 100,000 Tamils; in addition, this Council calls upon the International Community to bring forth proper international investigation to expose the mass killings tantamount to systematic genocide.
2. This Council resolves that without the active participation of the International Community, Tamils have no hope of realizing justice or a political solution, and we categorically reject any domestic mechanism to investigate the mass killings of the Tamil people.
3. This Council urges the International Community to set up an independent international investigation with UN assistance to investigate war crimes, crimes against humanity, ethnic cleansing, and the mass killings tantamount to genocide perpetrated against the Tamil people in Sri Lanka.
