**Ulavanoor kudiyiruppu bombing on 29 November**

At 1.30am on 29 November, as the IDP residents in the Ulavanoor kudiyiruppu, who were just recovering from a disastrous floods, were asleep, when sixteen cluster bombs were dropped on the Ulavanoor settlement. The newly settled IDPs who due to the floods, did not even have bunkers to take cover, ran into the forests through flood water in thick darkness.

A five year old child and another civilian were killed and nineteen more civilians were seriously injured, among them are seven children. Two of the injured have lost their limbs and some suffered head and stomach injuries.

The location of the bomb site is shown below.
A Russian made bomb dropped on 29 November that did not explode is pictured to the left. Other pieces of the unexploded bombs are also shown below. Note that the middle picture appears to be a parachute. These bombs are considered to be of the type cluster bomb which contain several smaller bombs inside and cause damage to wide area thus often having disastrous effects on civilian population. For this reason there is currently an international push to ban this type of bomb. Several countries have already announced that they will not use these bombs. Sri Lanka is counted among a few countries that have a stockpile of these bombs and are continuing to use them.

The victims of the bombing grouped together in family groups are as follows:
