Reporters without Borders is outraged by the murder of P. Devakumar, a television Reporter of Tamil origin, who was hacked to death as he was returning to his home outside the northern city of Jaffna. A friend who was with him was also killed in the attack. Stressing that the murder was just the latest in a series of killings of journalists in the troubled Jaffna Region, the Free Media Movement said condemnations and promises of investigations had no meaning "without the political will" to complete the investigation. "The repugnant impunity that aids and abets violence against journalists and media personnel must come to an end," the FMM said.

**Behind the muzzled voices from a troubled Sri Lanka:**

The article reports as all information that comes out of the Sri Lanka conflict is inherently untrustworthy since it is provided only by the combatants both of whom have a long record of telling lies in the name of propaganda. The effects of this dirty war is taking a terrible toll on Sri Lanka as a whole. There is the case of Tamil Journalist J. S. Tissainayagam who has been in jail since March under Sri Lanka's Sweeping anti-terror laws, for writing articles critical of the government in his magazine North Eastern Monthly which has now been shut down. It also says that in the name of "National Interest" and "War Sprit" Sri Lankan Govt has effectively crushed all opposition even from those who would ordinarily be considered patriots of the Sinhala Cause.

**East: Anything but liberated.** The government says that the “liberated” east is an example of democracy in action and a model for areas recaptured from the LTTE. The reality is anything but killings and abductions are rife and there is total impunity for horrific abuses. The eastern province is under siege from all sides. While Government is showcasing the region as one that is returning to normal, the people are still caught in a vicious cycle of violence.

Where is the world today?. In the HRC , the powerful states use their political influence and support to avoid the examination of human Rights violations in their countries and also to protect the countries which have bilateral links with them. SomStates even insist that they are exempt from UN scrutiny because what takes place in their countries is an“internal affair.” Countries like Algeria, India, Pakistan, Russia, Indonesia, Sri Lanka and a few other states are objecting to the Right to self-determination of the people living within their domain but support the same in other countries.

### **Growing Compulsions**

Sri Lanka’s protracted ethnic strife, now in its seventh decade has entered an important phase. We refer not to the claims by the Sinhala leaders – once we have heard time and again for thirty Years – that they will soon destroy the LTTE and pacify the rebellious Tamils but to the profound realignment of racial lines in the island. Never before has the gap between Tamils and Sinhalese been so clear and so deep. And never before has Sinhala Chauvinism been so naked and rampant.

We refer here not to the undisguised contempt of Mahinda Rajapakse regime exhibits for the Tamils but to the tangible racism of ordinary Sinhalese. It is in this context the Tamil question ie “Sinhala Oppression” has forced itself onto the agenda of the regional superpower India.

BBC World Service and Sunday Leader newspaper Censored: Reporters without Borders deplores the latest cases of government censorship of international and local news media. The BBC World Service has been jammed by the state-owned Sri Lanka Broadcasting Corporation and one the country’s most outspoken Newspapers the Sunday Leader has been forbidden to refer to the president’s brother. “We are worried by the increase in direct and indirect censorship in Sri Lanka,” Reporters without Borders said. “Coming after a broadcast media bill reintroducing news censorship, the selective blocking of BBC and Sunday Leader reports is disturbing. The authorities must accept the free flow of news even when it contradicts What officials are saying and irritates certain politicians.”

On Dec 5<sup>th</sup>, a judge ordered Leader Publications , the publisher of the Sunday Leader, not to print during two Weeks any report whatsoever about the president’s brother, defense secretary Gotabhaya Rajapaksa, who Personally went to the court to accuse the press group of publishing “Slanderous” reports about him. He is demanding 1 billion rupees in damages.

**Human Rights - What Human Rights?**

**We violated the rights of the Tamil people from 1956 onwards. Abductions, Kidnappings and Extra-judicial killings- the so-called white van syndrome has engulfed us. Terrorist suspects have no Human rights. The militarily organized practice of torture, the sexual abuse, and all other abuses of Men and women, clandestine incarcerations and forced disappearances, are perhaps new in our History. When are the people and their representatives going to wake up and realize that the country is governed by war criminals who are hell bent on ushering in a police state? Sometimes you look around and wonder how things could have gone so wrong so quickly. Sri Lanka is said to be eighth in the order of merit for genocide. The state of our nation is in the Grip of anomie meaning “a lack of the usual social or ethical standards”. It is obligatory that we ask ourselves how and why we have arrived at such a state. We are fast descending into a Dark Age, that has engulfed many a civilization not only in the distant past but also in more recent times.**

Reporters without Borders said.**

## **Sunday Leader Dec 14<sup>th</sup> 2008**

**Stifling “truth” in the name of war:**

**The people of Sri Lanka have plenty on their minds these days. With military clashes between the government and the Tamil tigers proceeding apace and major floods destroying thousands of homes and displacing tens of thousands of people, many of whose lives already had been disrupted by the ongoing fighting, Sri Lanka can hardly focus on an economic catastrophe the likes of which we have not seen in the last hundred years. The suppression of “truth” has led to the deterioration of political culture and the criminalization of the state. In a time of war, more than at any other time, the government should be under greater scrutiny, both through government appointed bodies as well as a vibrant and free media. Precisely, when the state lacks the commitment towards minorities and its citizens at large, civil society needs to act; the clergy, academics, trade unions, professional organizations, the NGOs and the business community should take on the formidable responsibility of defending the truth.**
