TEEDOR

TODAY

WE WILL TURN THIS AROUND

DEAR BRETHREN AND FRIENDS

Right from the day of independence of this country, every singhalese chauvinist government that has come to power has executed a systematic policy of genocide and destruction of livelihood of the Tamil people.

At the peak of experiencing thousands of atrocities "Tamil Ealam" became our only hope, our determination and solidarity became its backbone. The sacrifices of thousands of lives that can not be stilled by death are heralding a prosperous dawn.

To you the sons and daughters of Mother Tamil who are scattered world wide and to the friends of your respective host countries we wish to say that we thankfully recall for a moment the immeasurable pains you felt and the support you voiced for our rights, whenever we were persecuted on our own soil.

Nevertheless we are being forced to carry out simultaneously the struggle to prevent the genocide that is being carried out daily by the racist government of Sri Lanka, to redeem our rights and to win back our traditional Home Land, and the struggle to overcome the economical embargo imposed by the government on us.

The TEEDOR is working hard in identifying and the maximum utilization of available resources, in order to create the required Economic structure.

The efforts TEEDOR includes

1. Production oriented projects utilizing natural resources
2. Socio-Economic schemes for low-income families

To our dear Brethren who are living all around the world, and our friends who are willingly offering their unstinted support for our freedom struggle, we wish to remind that we are being subjected to a planned economical destruction.

We are sure that you wish to return to our MotherLand to help us to reconstruct MotherLand.

If so, you may please be a contributor to one or more of our following projects. Also you could make us available with the Technical Know-Hows which may be appropriate to our country and send us Books, Magazines, Video Cassettes on development oriented subjects.

These deeds will definitely make you proud of being a partner in redeeming our Mother Land that is sacrificing its sons and daughters to win back its lawful rights.

Following are some of the projects, that you can select to make your contributions.

- 1. Self-employment schemes for displaced persons.
- 2. Construction of shelters for displaced persons.
- 3. Formation of an Engineering concern.
- 4. Extension of the metal industry
